	Required	Checked	Loaded	Cleaned										
Equipment Checklist for Dive Project:_Quartermaster Harbor - WDNR_ Loading Date:_5/31/12 13:30_ (Take on dive project and include in Dive Report; DM to initial top of last column)	r toquilou	Status	Locado	dried stowed										
Organization - forms, basic repair & replacement parts														
LEAVE LINES BLANK FOR ITEMS NOT TAKEN-THIS ENSURES THE UDO SIGNING OFF ON YOUR PLAN CONSIDERS														
ALL NECESSARY EQUIPMENT.														
STANDARD GEAR		1												
	V		ı											
Divemaster Kit: 1 (of 2) = gray wheeled Pelican Divemaster Kit: 2 (of 2) = brown tackle box	Y													
Items to check: pony fill whip, clipboard with dive sheets, dive safety manual, divemaster folder, signed dive plan, dive tables, rangefinder,	v													
binoculars, AGA antimicrobial wipes.	Y													
Additional Cooler: list the equipment in the cooler: xxx	Y													
GPS: Garmin 640 for use in/on the boat Need waypoints preloaded on Garmin 4000/Hummingbird? (cabinet #2) Please request well before dive														
op. so TS can prep - UNPLUG and bring charger for multi day trips	Υ													
GPS: Garmin 60 for GPS raft; stored in cabinet #2 in dive locker load AA batteries (return dive team batteries to dive locker after ops!) 2 days														
before dive & check														
GPS Raft: stored at MEL; verify dive flaq and qps drybaq are included Cave Reel for GPS raft											 			
Batteries - start charging 3 days before ops! indicate # needed: Total 32														
AA's wireless (charge minimum 36 per day of diving) & tethered comms (min. 16 per day of diving), lights (4 each).*		Note: teth	er and wire	eless AA s a	are in their	respective	cases.							
C's-diver handheld lights (4 C's each).														
D's-diver handheld lights (8 D's each), nite riders (5 each)														
Power strips for charging equipment (overnight trips only) * AA Pelican may not needediust charg Aas in tether, wireless cases		-									-			
An i divan may not needed-just charg has in lether, wheless cases														
COMMUNICATION														
VHF radio: in drybag => Cooler (when not in use store plugged in / off on desk)- bring chargers for multi day trips (black pelican)	Y	Note: Sto	w in dryban	g, attach to	dm kit 2/2 f	or all dive	ons.				l			
Cellular phone: & car charger 206.369,7500 located with primary of 20 nd desk, (when not in use store on and plugged in)	Ý	140tc. Oto	W III diybaş	, attaon to	GITT KILL Z/Z I	or an arec	ърз.							
Satellite phone: (for offshore/remote lakes, etc.) Ask SS to request from ERU at least one week before needed, or request directly from Adam														
Bilodeau, 3-2160, cell: 206.491.3233														
Diver recall (NEW): 3 pieces - base station, microphone, transducer (bag)NEW AND OLD microphones and chargers are not	N	DVCKI ID	ONI V IT'S	QUIETER	TUAN TUE	OID								
interchangeableunplug and pack charger for multi-day trips Diver recall (OLD): 3 pieces - base station (black case), microphones (yellow pelican or loose), transducer (bag - yellow line) NEW AND OLD		BACKUF	ONLT-IT 3	QUIETER	IDAN IDE	OLD.								
microphones and chargers are not -interchangeable (use when new recall is unavailable)UNPLUG charger and bring for multi day trips	Υ													
<u>Wireless Diver units</u> : orange pelican, AA BATTERIES CHARGED(3), EXTRA BATTERIES (3); MAG or 10 WATT UNITS & backup batteries														
charged Wireless Base Unit (NEW)-2 pieces-small green pelican with mike and charger & larger black case with base unit & tranducer-NEW AND OLD														
MIKES/CHARGERS ARE NOT INTERCHANGEABLE-gear locker														
Wireless Base Unit (OLD)-1 piece-black box containing transducer, charger, and mike-by sink														
Managhana Pattaja landad functional 2 Pring on all tring and on the Maniter														
Megaphone: Batteries loaded, functional? Bring on all trips not on the Monitor.														
SAFETY														
First Aid Kit- Check for flashing hourglass on AED !	Y		l l											
Oxygen Kit: Check tank pressure! Check Elder releif valve (press palm on valve port till releif valve activates)	Y													
Spare oxygen bottle-refer to dive plan and bring sufficient o2 to reach your nearest hospital, at a minimum	Y													
Tending gloves 1 box	Y	1									 			
Decontamination: supply cooler (see Decon SOPs) and 2 nd pump sprayer Pump sprayer, filled with hot freshwater (e.g. for shore diving)											1			
Diver-down flag, float, line, and weight	Y													
Backboard, Bring on all trips														
PFDs-for NDC, MEL floats; any trips near water verify your dive platform can provide, or request from MEL at least one week prior.		THERE A	RE ONLY	7 IN INVEN	ITORY, RE	QUEST M	ORE FROM	1 RICHMOI	ND AT LEA	ST ONE WEEK BEF	ORE OPS.	ONLY FO	M CAN FL	Υ.
Decous Pattle 6 Standby Cook FOR ALL DWES														
Rescue Bottle & Standby Gear: FOR ALL DIVES Rescue Bottle (2 pieces): regulator in NPW configuration (1 of 3), and backpack for a rescue bottle (2 of 3) full AL 80 for rescue (3 of 3)														
NESSUE DATE (2 PIECES): Tegulator in ter ve configuration (1 to 3), and backpack for a fescue bottle (2 of 3) for ASSUE (3 of 3)	Y													
Standby gear: standby reg in configuration specified in the dive plan	Y	TETHER	OR SURF	ACE SUPPI	LIED STAN	IDBY? FO	R SS, STA	NDBY IS SI	URFACE S	UPPLIED, NOT TET	HERED SC	UBA.		
Unless otherwise specified, standby will be tethered standby diver: One 300' rope, orange and black comm boxes	Y													
Packup air supply FOR ALL ACA SCUPA DIVES														
Backup air supply: FOR ALL AGA SCUBA DIVES 4 Ponies & attached brackets (check and lube pins; check pressure-top off from 100s if possible)														
4 FONIES & attached prackets (check and tube pins; check pressure-top on from 100s in possible) 3 KM blocks and attached Aqa hoses+ spare (4 total) (4 total)														
3 regulator assemblies with QDs (for main tank and pony)														
backup QD, backup AGA hoses														
pony fill whip														
check all 6 QDs for easy rotation, sliding, insertion & removal - clean & lube as needed Pony regulators for recreational/bite mouth configuration (up to 1)														
1 - O. F. LONGINGO TO A LEGICAL CHARGE HIDAKI CONTINUE AND LEGICAL LEG														
DIVER GEAR & REPAIR/ ADJUSTMENT														
SCUBA tanks: # needed + 2 extra (2 extra for: 1 for standby, one for rescue) (steel recommended for tethered extended bottom time/safety)	#	Includes	# of tanks r	needed for										
	#	1	ALL days			1	1			1	1			

Steel white/ Steel gray / 80s/note nitrox tanks: enter as # / # / # - Take All 80-'s (need 11 total (12 if one diver dives twice) fill rest with	0/0/0												
grey steels)	0,0,0	11 from la	ab on 6/5, balance from	m lab + var	for 11 on 6	6/6, 11 fron	n office on 6	5/7					
CHECK 02% FOR NITROX TANKS WHEN LOADING!!!	.,												
O2 sensorbring with any nitrox tanks	Y												
Tank Storage on Dive Platform: Bring wire rack on non EPA vessel dives; REMIND EPA Boat Operators to move/bring tank racks to Wooldive													
from Monitor as needed (there is only one set/pairthis holds 6 tanks per sidex2=12 tanks)		ш											
AGA Cooler: Agas with microphones (minimum = 4). Enter number needed - include a spare		#											
AGA hoses - enter number needed (min=1); recall that two hoses are dedicated to the tethered system													
Tethoned (9 since)													
Tethered (8 pieces): Comm. Ropes (182) - blue and yellow-200 foot													
Comm. Ropes (1&2) - blue and yellow-200 foot Comm. Ropes (1&2) - blue and yellow-300 foot FOR STANDBY (SEE STANDBY, ABOVE)	V	300 foot t	ether for standby!										
Orange Pelican (3) - surface comm. With 8 charged AA's, one backup 8 AA set (SEE STANDBY, ABOVE)	Ÿ	300 1001 1	cirier for startuby:										
BCs (4&5): at least one M, one L THIS NEEDS REVISING FOR THE NEW BCs, NO?!	Ÿ												
Harmesses (78.8)	Ý												
Transcool (Tab)													
Surface Supply (7 pieces)													
EGS 50 ft3 gas bottles with harnesses and KM blocks, tested, tanks (2) filled?													
Spares kit (desert tan, 19A)													
Control box, charged? UNPLUG & stow charger in lid before removal (orange)													
3 AGAs, minimum													
Personal Gear: Weights (steel/AL/both?), fins, gloves, wrist computer (if desired)													
Tank Rack (1)													
AIR only for surface supply													
2 umbilical cases (desert tan, 19A)													
Backup Gear: EXTRA Regulator (bring a diver reg, QD from black pelican, aga hose from beige gear locker), cuffrings, green gloves (at least	Y												
two per diver per day) into DM Pelican, extra BC1 large 1 medium 1 small are needed on boat!	·												
Soaking Cooler: for regulators and camera (or ask boat operator to bring)	Y												
Dive Ladder: Verified with boat operator a dive ladder extending 4 feet below the surface will be available on the boat.	Y												
Drinking water: All divers have drinking water (or ask boat operator to bring bottled water instead or as a backup)			<u> </u>							<u> </u>			
Dive Weights: Ankle weights, spare wt beltsubtract 20# for white steel 120 dives, subtract 12# for grey steel 120 dives (from AL 80 weight).	Y	DID EVE	RYONE REALLY BRII	NG THEMS	ELVES EX	TRA WEIG	SHT? DON'	COUNT (ON STEALING FROM	A BUDDY	<u>′. </u>		
Personal Gear: Complete set of dive gear for each diver, including drysuit kits (scissors/talc/wax)	Y												
Green gloves: Bring one pair for each diver per dive x the # of days diving =	Y												
Boots/rain gear: Pre-order from MEL/check 19A-Remember the Skookum scoops water!	T
